WE ALL NEED HIGHER COMPONENTS. One of the fastest ways to change your component percentages is through genetics. Loaded's dam Leeza has an unprecedented lifetime combined fat & protein average of 11.6%!! Add to this Loaded's sire Viral being +0.23% fat and 0.11% protein, and you have unprecedented component potential! Be confident that Loaded will also sire beautiful udders, frames, and feet & legs, making him the perfect outcross to sire long-lived cattle that work hard every day producing loads of components!!

A bull or cow family that produces similar offspring consistently has been referred to as a "cookie cutter" bull or cow family. This kind stamps them out the same every time, giving you confidence in knowing what that cow family will produce. Chocolate Chip is this kind, needing no introduction, and with each passing year, her progeny add to her already impressive resume. Add the Australian sire Askn to the mix, and you are sure to have consistency of great udders, beautiful frames, production, consistent transmitting ability, and the much needed correct rump angle. Go ahead and make your own cookies with Cookie Cutter!!

JERSEYS

LEEZA LEGACY. Triumphant checked all the boxes when we started looking for another son from the unparalleled Leeza. The combination of her sons Loaded and Triumphant in our lineup will meet the many needs of dairymen, with Triumphant being a rear udder specialist!

Triumphant's dam is already proving her ability to transmit, with 8 of her daughters averaging 6.2% fat and 4.1% protein in their first and second lactations, the highest of which boasts an outstanding 3yr old 345 day record with a whopping 13% combined fat & protein with 18,078lbs 8.1% 1,457lbs fat and 4.9% 886lbs protein; truly incredible! Triumphant himself will be a breeder satisfaction bull who can make trouble free daughters with consistent high component records that look good doing it, and a bull that can also corrects the rump structure, lowering the rump angle on your high pinned cows.
